

## God's Word Brings Hope

Pastors and other ministry workers in the predominantly Christian area have requested Bibles for those living in the camps. Often, the Bibles are needed to replace those that Christians lost while fleeing the violence. When a woman named Halima received a bag of basic supplies and an audio Bible from a caring local Christian, Halima said it would help drive her fears away. "[The Bible] will help me to leave these bad thoughts and put the Word of God in my heart," she said.
